

## Accessibility

What is Web Accessibility?

Web Accessibility ensures that those with disabilities are able to navigate and interact with our website in a way that is convenient and comfortable for them. This includes menu navigation tabbing, video transcripts and captions, contrasting and much more.

What is Amino accessibility plan?

As part of our commitment to Web accessibility, we created detailed accessibility plan for our customers and associates,

What are Amino standards for Web Accessibility?

We are in the process of adhering to government-regulated compliance standards: [Accessibility for Ontarians with Disabilities Act \(AODA\)](#) and [Web Content Accessibility Guidelines \(WCAG\) 2.0](#), level A and AA guidelines. These guidelines are developed with individuals and organizations all over the world to ensure a single shared standard for Web accessibility.

This is an ongoing course of action for us, and our standards will continue to evolve alongside changes to Web Content Accessibility Guidelines as well as developments in technology.

How do I send feedback about accessibility?

We want to hear about your experience. If you have questions or wish to provide feedback please contact us at
